

PUZZLE

UNIT II: Functions and Strings

"The Function Flowchart Challenge"

You are given a flowchart where each step represents a different function or string operation in Python. The flowchart is incomplete, with some operations missing.

Objective: Fill in the missing parts of the flowchart with the correct Python function or string operation that matches the description provided. Each correct answer completes the flowchart and brings you closer to solving the overall problem. Incorrect answers lead to dead ends in the flowchart. Can you complete the flowchart to find the hidden message?
