**Resource Allocation / SPM / Sivagami R / IT/SNSCE** 

**Resource allocation** 

- Closely linked with activity plan ullet
- Allocation of resources to activities may lead to modify the activity plans ullet
- May involve revise of project completion date lacksquare

Steps

- Identify resources ullet
- Make the demand for resources  $\bullet$
- Produce work plan resource schedule  $\bullet$

**Resource allocation involves** 

- An Activity schedule  $\bullet$
- **Resource Schedule** lacksquare
- Cost schedule

**Resource Allocation / SPM / Sivagami R / IT/SNSCE** 

Nature of resources Categories

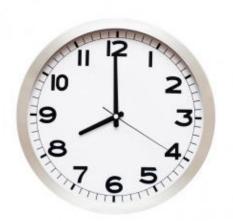

- Labour lacksquare
- Equipment lacksquare
- Materials
- Space  $\bullet$
- Services  $\bullet$
- Time
- Money  $\bullet$

#### Other factors

- Identifying resource  $\bullet$ requirements
- Scheduling resources  $\bullet$

#### **Resource Allocation / SPM / Sivagami R / IT/SNSCE**

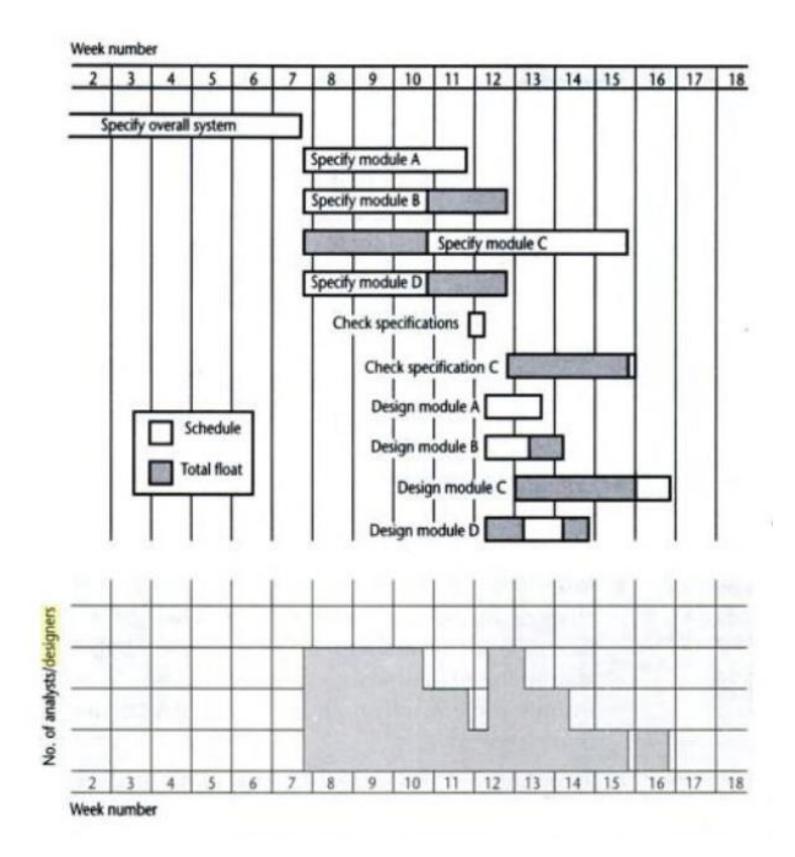

Creating critical path

- Scheduling resources create new critical paths  $\bullet$
- Delaying the start of activity because of lack of resources will cause that activity becomes critical
- Delay in completing one activity can delay availability of  $\bullet$ resources required for later activities.
- If later one is already critical then earlier one might now ullethave been made critical.

**Resource Allocation / SPM / Sivagami R / IT/SNSCE** 

27/09/2024

#### Cost Schedule

Involves Weekly or Monthly cost schedules for project life cycle

Staff costs – Staff salaries, Social security fund, pension scheme, holiday pay, sickness benefit

Overheads – expenditure incurs, which cannot directly related to individual projects or jobs including space rental, interest rates, cost of service dept.

Usage charges – Projects are directly charged for use of resources such as computer time. As used bias.

**Resource Allocation / SPM / Sivagami R / IT / SNSCE** 

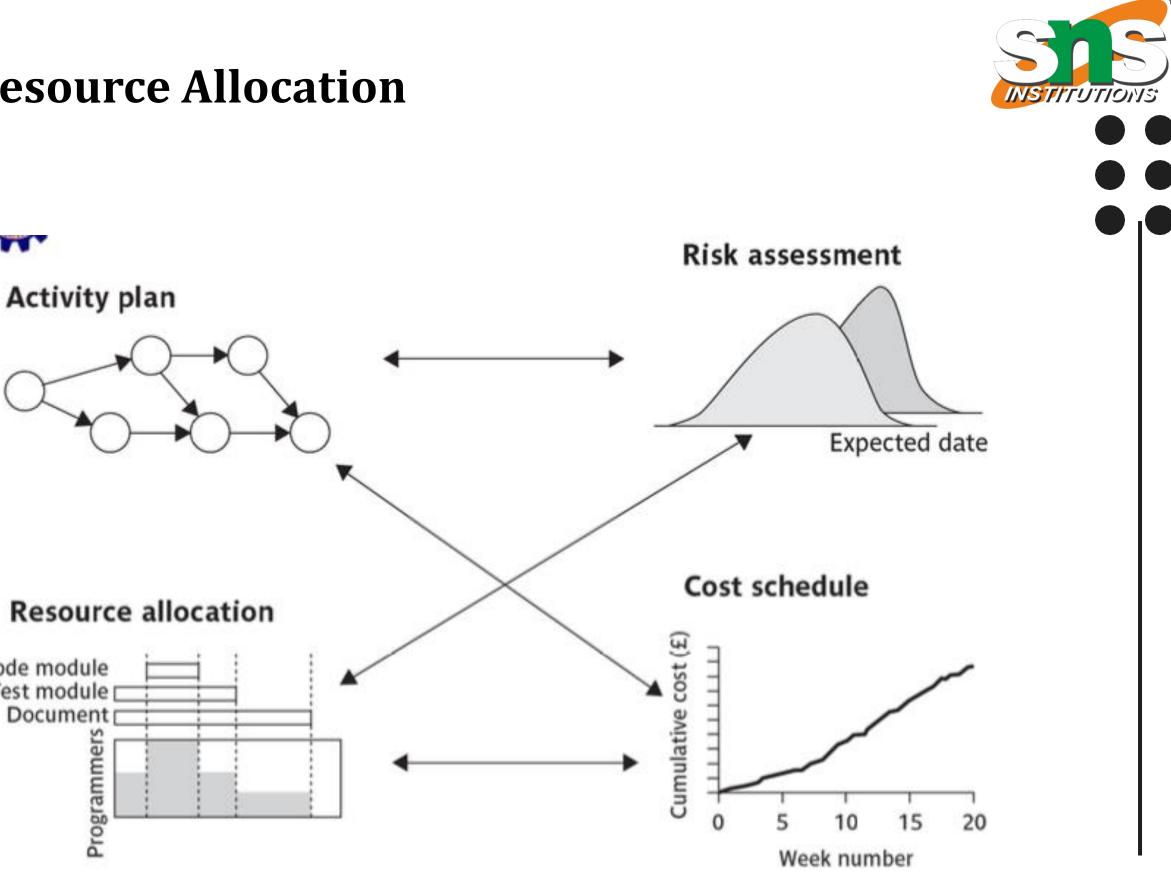

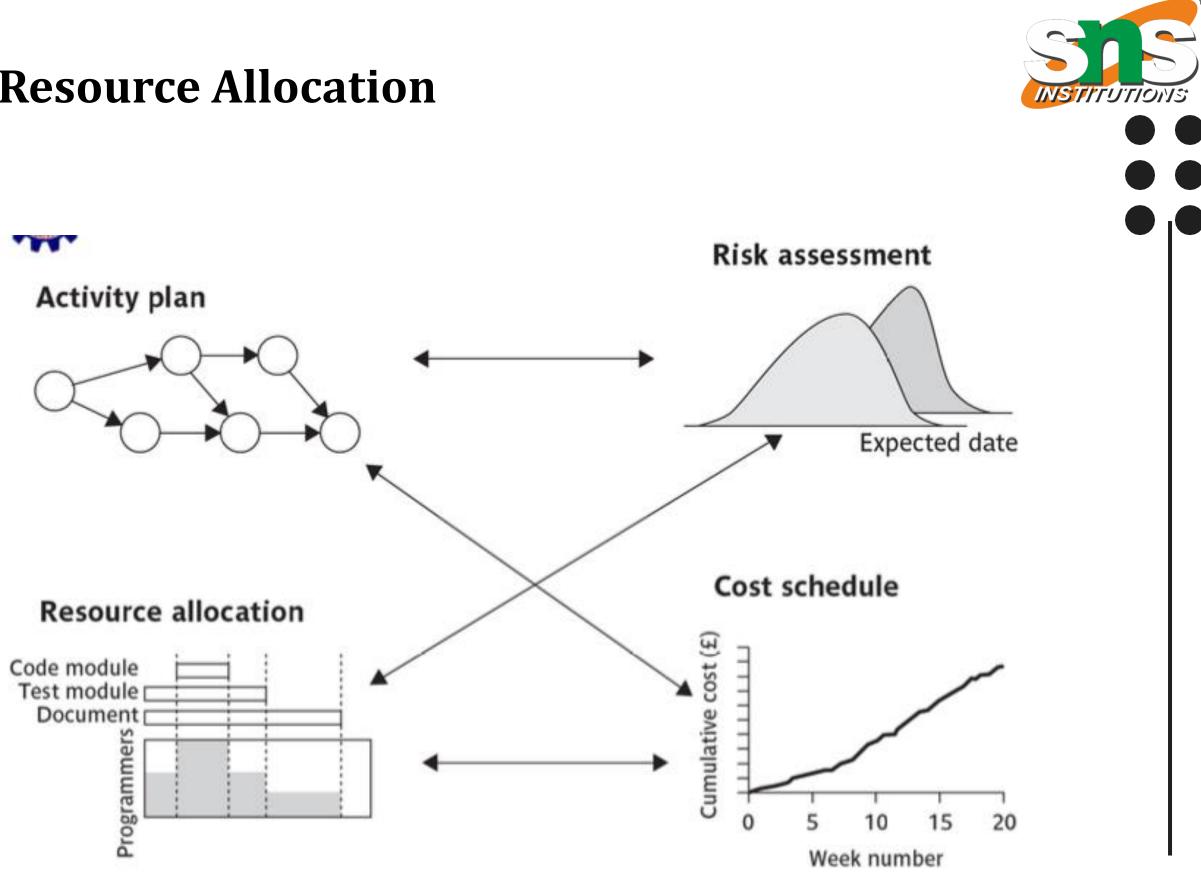

The scheduling sequence

- Activity plan  $\bullet$
- Risk assessment ullet
- Resource allocation ullet
- Schedule  $\bullet$
- Cost schedule  $\bullet$
