I YEAR /I SEMESTER

Unit 2- Functions of Management

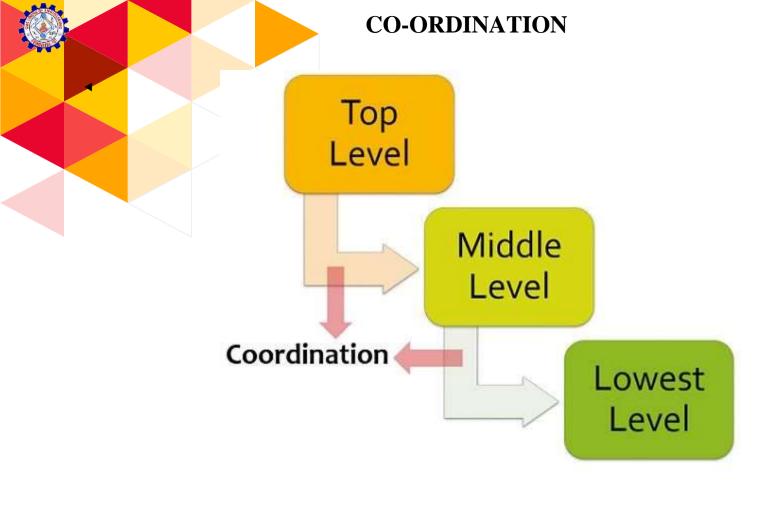

Topic: Co-Ordination

CO-ORDINATION

Coordination

- Definition: Coordination can be described as that invisible cord, which runs through all the activities of the organization and binds them together.
- It is not a function of the management, rather it is the **essence of management**, which is needed at all levels and at each step of the firm, to achieve the objectives of the organization.
- Coordination means the integration and synchronization of the activities, resources and efforts of the people working in the organization, which leads to unity of action
- ◆ Coordination is that hidden force that links all the functions of the management, i.e. planning, organizing, staffing, directing and controlling.

- Coordination is a process, which ensures that various departments, units and levels of the organization work smoothly and continuously in tandem, i.e. in the same direction, towards the accomplishment of organizational goals, while effectively utilizing the resources.
- ◄ It aims at involving all the elements of the company, in the plan, strategy or task, to get input from everyone and attain best results.
- "With coordination comes harmony in the performance of organizational tasks".
